PROFILE

Computer Engineering student specializing in Software Engineering and Full-Stack development. Passionate about designing and building web and mobile applications, with skills in Java, Spring Boot, REST APIs, Python, Next.js and databases, gained through several academic projects and hands-on experience. Seeking a 6-month final-year (PFE) internship starting February 2027 to apply my skills and contribute to real-world software projects.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern (Next.js) | NichanLabs, Errachidia | June 2025 - August 2025

- Contributed to the development of a school management platform within a project team.
- Built the user interface with Next.js and Tailwind CSS.
- Integrated REST APIs developed with NestJS and connected to a MongoDB database.
- Worked as part of a team using GitHub for version control, Jira for task tracking and Postman for API testing.

ACADEMIC PROJECTS

Medical Practice Management Application | Spring Boot, MySQL

- Developed an application to manage patients, doctors and medical records.
- Implemented a consultation request system with approval or rejection by the administration.
- Built a secured REST API with Spring Boot and data persistence with MySQL.

Vehicle Management and Sales System | Java, JavaFX, PostgreSQL, Elasticsearch, Kibana

- JavaFX desktop application to manage vehicles, customers and sales, with PostgreSQL for data storage.
- Used Elasticsearch and Kibana for advanced search, data visualization and logging.

Microservices-Based Application | Spring Boot, REST API, Microservices

- Designed and developed an application split into several independent microservices with Spring Boot.
- Services communicate through REST APIs, with a clear separation of responsibilities and data.

Other projects

Intelligent Multimedia Analysis System | Python, Flask, Machine Learning, SQLite

- Analysis of YouTube videos and academic content, with generation of summaries (text and key images).

Face Recognition Attendance Management | Python, Flask, Deep Learning

- Employee identification using Deep Learning, with automatic attendance tracking.

Teaching Units Assignment Web Application | PHP, JavaScript, Bootstrap, MySQL

- Management of teaching units and teacher assignments.

Company Management Application | C++, Qt

- Desktop application to manage employees and inventory.

Leave Management System | C

- Management of employee leave requests and approvals.

TECHNICAL SKILLS

Areas : Software engineering, Full-Stack (Frontend/Backend), REST API, Microservices, OOP, Databases (SQL/NoSQL)
Programming languages : C, C++, Java, Python, JavaScript, PHP, SQL, HTML, CSS
Frameworks : Spring Boot, React.js, Next.js, Flask, Bootstrap, Tailwind CSS
Databases : MySQL, PostgreSQL, MongoDB, SQLite, Oracle DB
Search and data visualization : Elasticsearch, Kibana
Tools and technologies : Git, GitHub, Jira, Postman, Gamma, JavaFX, Visual Studio Code, Qt Creator, Canva, Excel, Word, PowerPoint
Operating systems : Linux
Soft skills : Project management, communication, teamwork, problem solving, critical thinking, autonomy

EDUCATION

Engineering Degree - Computer Engineering
National School of Applied Sciences of Al Hoceima, Morocco **2024 - 2027**

Integrated Preparatory Cycle
National School of Applied Sciences of Al Hoceima, Morocco **2022 - 2024**

Baccalaureate, Mathematical Sciences A (French option)
Lycee Salah Eddine El Ayoubi, Tinghir, Morocco **2021 - 2022**

LANGUAGES

Arabic : Native | **French :** Fluent | **English :** Intermediate level (B1/B2)

INTERESTS

Personal development projects, reading, sports.
